- 1. The primary reasons the candidate should be recognized:** Include specific examples that support the award requirements. Limit to one page.

Danny has been a committed SPE member, serving in numerous capacities, in various SPE sections in the USA. His CV and SPE activities, submitted by others, attests to his commitment and support of the SPE.

In addition to having seen Danny work with and for the SPE, I have had the privilege of working with Danny on a professional level. Danny and I worked for the same company, Sun Oil/Oryx (later becoming KerrMcGee/Anadarko) for several years. During my time with Sun Oil/Oryx, 1982-1994, I interfaced with Danny in several capacities. I was always impressed with Danny's work ethics, his professionalism and his ability to inspire the best in those he worked with and those that worked for him. He always worked for the good of the company or others rather than for his own self gains. We've seen that same approach as he has worked with the SPE.

I have also been impressed with Danny's involvement in activities outside the professional arena, his church work, work with children and other groups.

I feel honored to know Danny as a fellow professional associate as well as a friend.

Danny has been recognized by the SPE with the Region Service Award and I feel strongly that he should receive recognition at the International level. I have had the opportunity to visit many SPE sections worldwide, as a distinguished lecturer, and I know Danny's skills and dedication would stand out in any section. There aren't many SPE members as dedicated as Danny, interested in helping the SPE achieve their goals.
